

## Music Rules

The Sunday night session is a program dance session run by the Windy City Figure Skating Club and operates differently than McFetridge practice ice. The WCFSC music played includes a variety of dances at different levels and lasts approximately 45 minutes. All skaters will have a chance to skate their dances as they come up, even those skating a half session. In fairness to all skaters, please observe the following rules regarding music:

1. ***Only Windy City Figure Skating Club officers or coaches giving lessons*** may change the music. All other skaters must wait their turn for their dances to come up on the CD played.
  - a. Windy City officers will not change the music for an individual skater.
  - b. Coaches may change the music for the skater to whom they are giving a lesson, during the lesson.
2. The dance that is currently playing must be allowed to finish before the music is changed.
3. If any skater is skating the dance on the posted schedule, or if a skater is in position waiting to start, they must be allowed to finish the dance before the music is changed.
4. Music must be put back at the place it was before on the WCFSC dance CD.
5. The session is only for ice dances and moves in the field.
  - a. Please do not jump or spin.
  - b. Please do not practice synchronized skating as a group.
6. Free dance music may be played during a lesson.
